PROFESSIONAL SUMMARY

Front-End Developer with +2 years of freelance experience building responsive, modern web applications using React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, and REST APIs. Experienced in transforming Figma designs into scalable, maintainable user interfaces. Passionate about creating high-quality user experiences, writing clean code, and continuously improving technical skills.

PROFESSIONAL EXPERIENCE

Freelance Front-End Developer

April 2022 – Present

- Developed responsive and user-friendly web applications using React.js and Next.js.
- Integrated REST APIs and managed client-side data efficiently.
- Converted Figma designs into production-ready interfaces.
- Built reusable and maintainable UI components.
- Optimized website responsiveness and performance across devices.
- Collaborated directly with clients to implement business requirements.

PROJECTS

AI Stack Platform

Technologies: React, TypeScript, Tailwind CSS

- Developed a platform for exploring and discovering AI tools.
- Implemented responsive layouts for desktop and mobile devices.
- Built reusable frontend components for scalability.
- Focused on performance optimization and modern UI practices.

Live Demo: aistack.dorsavalli.com GitHub: github.com/Dorsavali

Digikala Clone

Technologies: React, TypeScript

- Developed a responsive e-commerce user interface.
- Created reusable product and layout components.
- Implemented modern frontend architecture and responsive design.

IMDb Clone

Technologies: JavaScript, REST API

- Integrated movie database APIs.
- Implemented dynamic search and filtering functionality.
- Developed responsive user interfaces with modern JavaScript.

Movie Search Application

Technologies: React, REST API

- Built a movie search application using external APIs.
- Implemented dynamic content rendering and search features.
- Improved user experience through responsive design.

Finsweet Website Clone

Technologies: React, Tailwind CSS

- Converted Figma designs into responsive web pages.
- Applied component-based architecture and clean code practices.
